

A-series

A99 **USB Fingerprint Reader**

Small in size

Big in performance

A99 is a USB fingerprint reader designed for use with Mexo fingerprint terminals or developer software. A99 fingerprint reader utilizes optical fingerprint scanner which is scratch-proof, unbreakable and durable. Mexo fingerprint reader utilizes blue area source (a stable light in spectrum) as background light. The generated image fully matches the real one. Accurate and good in anti-interference. No latent fingerprint impact.

A99 USB Fingerprint Reader

Specification*

Item	Description	Test condition
Image Format	304*256 BMP	500DPI
Power	DC 5V	
Identification Time	<20 ms	Feature extraction + fingerprint comparison
1:5000 Search Time	<1 second	
Image Reading Time	15fps	
FRR	0.001%	
FAR	0.00001%	
Standard Port	Standard USB port	
Sensor Size	22mm*18mm	
Casing Size	68(w)*74(h)*75(d)mm	
Option	card reader, blue tooth, lithium battery	

Feature

- New generation fully sealed, waterproof and dustproof fingerprint sensor
- Accurate image capture and good in anti-interference
- Fingerprint image of no-distortion
- USB connection
- Compact and portable design
